GCTMC Secretary's Report

Over the past month, many things have happened in the club. The Executive have been busy to keep the club moving in a forward direction.

With the major rain event in March / April, it has caused our Khanacross venue at Pimpama to not be available for use. For those who are new to the club, Peter Preston (Life Member) does a lot of work to prep the track ready for competition. Unfortunately, it is an old swamp and when we have a lot of water, it becomes trapped and cannot drain. The club is always looking for new venues we can utilise. If you know of anyone who has some property we could access to run a khanacross or motorkhana, please let the Executive know.

Some good news. Preparations are well under way for Round 3 of the MRF Tyres Queensland Rally Championship, the *Globe Roamer Rally* on the 12th August. Headed by Brian Everitt and his team who brought you the International Rally of Queensland, and along with GCTMC members, a compact event based around Imbil Showgrounds has been developed. Scrutineering will be at Tyres & More Strathpine (Shaun Gill's workshop) on the Sunday prior. Not competing, please go to the link to register as an Official. Many thanks to Chris Gabriel and his team at Globe Roamer on becoming the naming rights sponsor.

Preparations are also under way for the Yowie Country Rally on Sunday 1st October based out of Woodenbong. It will be the same format as the Border Ranges Short Course held in 2015. I am proud to report that my business, MPS Consulting Services, will be the naming rights sponsor of the event. The Police permit has been received. All we need now is an organising team to make it happen. Interested? Please contact any member of the Executive.

IT'S THURSDAY
NIGHT 22nd JUNE

*Did you
know the
GCTMC
needs a
Club
Captain!*

The club needs a club captain who has the ability to encourage participation and involvement by competitors, organisers or helpers. You do not need to be the organiser of events or even have great knowledge of motor sport event organisation. What is needed is a facilitator to help make things happen. If you think that's YOU please contact a member of the club's Executive.

Unfortunately, the last two Khanacross have been washed out. Pete Preston is working to have the track ready for the next scheduled event. Please keep an eye on Facebook for details. Supp-regs should be available the week preceding the event. Please pay on the day.

Blue Card Overview for GCTMC Inc. Members

www.bluecard.qld.gov.au

CAMS have recently forwarded to the club information about the Blue Card System in Queensland and how this could impact volunteers in Sport and Active Recreation.

If you are a volunteer providing services directed mainly towards children or conducting activities mainly involving children as part of sport and active recreation you WILL require a Blue Card.

Some examples of this include:

- A volunteer coach or coaches' assistant of a junior sporting team, e.g. a coach at the local cricket or soccer club.
- A volunteer trainer, e.g. a trainer preparing nippers for a surf lifesaving competition.
- A chaperone for a junior sports team on an interstate or international trip, e.g. a grandparent acting as a chaperone for a junior hockey team on a trip.
- A volunteer supporting athletes at a junior swimming meet.
- A volunteer member of a board/committee for a community organisation which provides regulated activities for children.

As many of the club's activities involve children but are not singularly aimed at children we believe most of our volunteers will not require a Blue Card. However, that could change in the future and it's important that each of you access your requirement for a Blue Card individually – you can go to <https://www.bluecard.qld.gov.au/> for more information.

Documentation & an Application Form is on the GCTMC Inc. web site.

Please be thoughtful about what you say on Social Media. Being a Joker and igniting a bomb doesn't always mean you can just walk away unscathed.

CAMS Social Media Policy

The Confederation of Australian Motor Sport Ltd recognises the significant benefits of Social Media and its widespread use in motor sport.

However, when used incorrectly, Social Media can cause damage and create risk for those who use it. CAMS has a legitimate interest to make sure that Social Media is used responsibly in motor sport.

The CAMS Social Media Policy aims to regulate how Social Media is used in relation to CAMS and each Event (as defined in the CAMS National Competition Rules), as well as stating the potential consequences if Social Media is not used correctly.

SAFETY RECALL: CORBEAU HARNESS BELT

CAMS wishes to advise of a product recall for certain models of SFI Standard 5-Point Camlock Harness Belts (53001B, 53007B, 53009B).

Corbeau USA, LLC has recently discovered a potential safety issue with its 5-Point Camlock Harness Belts. We have reason to believe that on a small percentage of belts, the right lap insert tab had the hole drilled off center by a 1/16th of an inch, causing the lock pin inside the camlock dial to not lock properly. This could potentially cause the right lap belt to come unlocked from the camlock dial under minimal stress.

Corbeau USA, LLC is voluntarily recalling 5-Point camlock harness belts with part numbers 53001B, 53007B, and 53009B purchased between 4/01/16 and 4/24/17. These would have stamp dates between May 2016 and May 2017. In other words, all belts with SFI stamp dates from May 2016 to June 2017 are being recalled. This does not include any belts purchased after 4/24/17.

We are certain this only applies to a very small percentage of these belts but at the same time also want to be certain that all belts in the field are free from this defect. The problem was found during testing with the SFI foundation. This recall ONLY applies to 5-Point camlock harness belts.

While we are certain this only applies to a small percentage of belts, we ask that you please contact us immediately to return your belts so there are no doubts that your belts are free from defect.

This recall notice only applies to SFI standard harnesses. Please contact CAMS' Technical Department on 1300 883 959, or via email: technical@cams.com.au
